THIS WORK IS DEDICATED

FOREWORDS

THE object of this work is to facilitate reference to the five volumes of Registered Wills proved from 1501-1765 by arranging the various Indexes into one alphabet. There are some wills that are not registered in any book; these are indicated by indentation.

In 1714 a dispute as to certain rights as to probate within the jurisdiction of the Vice-Chancellor was finally decided by Dr. Sherlock, and the details of the settlement are set out in Section " A."

In 1829 the House of Commons ordered a return as to the condition of the documents, etc., belonging to the said court. The reply thereto is given in Section " B."

In 1858 an Order in Council was made for consolidating the various probate registries into certain districts, which effected great saving.

Among the many notable wills which are of great value as to many details regarding time, place, events, occurring at that time, there are two registered as proved during the Commonwealth. A desire was expressed that copies of these records should be procured and placed in Cambridge for the use of students and those interested in such matters. To further this end application was made to the Rt. Hon. Sir Francis Jeune, the then President of the Probate Division of the High Courts of Justice. Circumstances over which there was no control arose, and the desire remained unfulfilled

when the editor of the present calendar undertook the task. A fresh application was made to the Rt. Hon. Sir J. Gorell Barnes, the present President of the Court, who courteously gave the requisite permission for the work to go on.

The list of Vice-Chancellors during the period named (1501-1765) is compiled from the probates of wills proved.

The small number of wills recorded as proved from King's College can be accounted for from the fact that this body had the right to prove and grant administrations to members and servants of their college, thus taking them from the jurisdiction of the Vice-Chancellor.

There is a copy of a decree (loose) from the Court of Chancery "Re Sir James Lancaster and the Skinners Co." in Book III; a printed abstract from Viscount Fitzwilliam's will *re* founding the museum; also a written one from the will and codicil of Dr. Benedict Chapman (1852) in Book V.

The Editor's best thanks are due and offered to the Rt. Hon. Sir J. Gorell Barnes, President of the Probate Court; J. E. Foster, Esq., M.A.; W. H. Jamblin, Esq., Chief Clerk at the Peterboro' Probate Registry, and the officials there for courteous assistance, also to my young assistant, Frederick Alfred Benstead, for ready help at all times.

A

WHEREAS the right of the University of Cambridge as to the probate of Wills hath lately been brought into controversy by John Brookbank, Dr. of Laws, Official to the Archdeacon of Ely, with respect to some persons reckoned to be under the priviledge and belonging to the Court of the University. AND whereas the said John Brookbank hath of his own accord referred the matter in question to the Rev. Dr. Sherlock, Vice-Chancellor of the University, to be by him equitably and amicably decided after examination made into the Charters, Records, Registers, etc., of the University. NOW such examination having been fairly made IT DOTH appear to the said Vice-Chancellor and accordingly it is declared THAT the University has undoubted Right to the probate of Wills and granting Administrations of goodes of all such persons as are hereinafter mentioned.

(1) ALL persons who are described and declared to be under priviledge in that ancient record belonging to the University commonly called the "Processus Bernwellensis," And all and singular persons described or mentioned as schollars, servants in the Royal Charter granted to the University by the Kings and Queens of England especially those described or mentioned in one of the Charters granted by Queen Elizabeth in the 3rd year of her reign and in one of the Charters granted by the said Queen Elizabeth in the

one and thirtieth year of her reign and in the composition between the University and the Town to which reference is had in the last named Charter.

(2) ALL children and servants of schollars or any priviledge person as above mentioned which children and servants at the time of their death are of the family of any schollar or priviledge person.

(3) ALL widows of schollars or priviledge persons who continue to their death the widows of such schollars or priviledge persons.

(4) ALL children and servants of such widows being of the family of the said widows at the time of their respective deaths.

AND FURTHER it is declared It is not the intent of this writing to preclude the University from any other right or priviledge which may be ommitted and which shall otherwise appear to belong to it. But the intent is only to settle the points lately disputed.

I, JOHN BROOKBANK, Doctor of Laws and Official to the Archdeacon of Ely, do hereby acknowledge and admitt of this Declaration and Specification of Rights and Priviledges of the University as just and right. AND I doe for myself and successours the Officials of the Archdeacon of Ely for ever Renounce and disclaim all pretensions to the Probate of Wills or the Rights of granting administration of Goodes of all and singular persons therein specified. IN WITNESS whereof I have hereunto set my hand and seal of office this one and twentieth day of December 1714.

(*Signed*) JOHN BROOKBANK.

I RICHARD BENTLEY, Archdeacon of Ely doe for myself and successours the Archdeacons of Ely for ever Approve

Ratify and Confirm this Act of my Official. IN WITNESS whereof I have to these presents set my hand the day and year above written.

(*Signed*) RICHARD BENTLEY.

Read and published in full convocation by MR. PYCROFT, Senr. Proctor, 21 Decr., 1714.

The above is a true copy of the original deed in the Registry of the University of Cambridge. This I attest.

A RETURN from the Court of the Vice Chancellor of the University of Cambridge, stating the date of the earliest Wills in the Registry at the period at which the regular series of Original Wills recorded copies of Administrations, Bonds, Inventories, of Act Books, of Probates and Administrations, and of Indexes to these Records, together with a statement of any occasional chasms that may occur

in and an accurate detail of the state and condition of the said Records made and transmitted in pursuance of a Resolution of the House of Commons.

The date of the earliest Wills in the Registry of the University of Cambridge is in the year 1540, from which period until the year 1765 there is a regular series of Original Wills.

These Wills are collected together in twenty-five different parcels which are numbered, and the whole are in very good preservation. Amongst the above documents attested copies of Wills are occasionally found, the originals of which have either been proved in the Prerogative Court of Canterbury and registered there, and then proved and registered again in the University Court by means of an attested copy, or have been proved First in the University Court, and the originals have been removed to the Prerogative Court for probate, and attested copies left in the University Registry.

The above Wills with their respected probate Acts are all registered in five different bookes, which are Indexed and in good preservation. The *First* of these bookes commences in 1501 and concludes in the year 1558, and consequently contains entries of Wills for a period of forty years, the originals of which cannot now be found. In this volume there is a chasm left for the entry of one Will about the year 1506. [Space occurs at pp. 14-15.] The *Second* of these bookes commences 1558, and concludes in the year 1597. The *Third* Booke commences in 1562, and concludes in the year 1658. Between the years 1597-1602 no Wills appear to have been proved *Fourth* Booke commences in the year 1657, and concludes in the year 1736; and the *Fifth* Booke commences in the year 1729, and concludes in the year 1765.

The last Will was proved 12th February, 1765, since which

period no Wills appear to have been proved or administration granted by this court.

In the *Fourth* volume there is a chasm left for the entry of various Wills between the year 1728-34 [there are 118 folios blank in book 4; at the end of the book after folio 118 there are twenty folios occupied by Bishop Wren's (of Ely), which begins upside down in the book FR], but the chasm is supplied in the last volume which it will be observed commences in 1729.

In the *two* first of the above books are recorded various grants of administration, but no administration bonds or inventories appear to have been registered. In the *three* last books no administrations are recorded, nor is there any trace of any in the Registry subsequent to the conclusion of the *Second* Book, except as after mentioned.

There are a regular series of inventories from the year 1528 to the year 1700, which are collected together and deposited in the Registry. In a book entitled "Catalogue Exhibitorum,"[1] etc., which contains miscellaneous matters, there is entered a list of the above inventories merely containing the names of the parties. There is an alphabetical list of Administration Bonds which only contains the names of the parties but no bonds are found deposited in the Registry.

As the last Will proved in the University Court was in the year 1765, no further return can be made in compliance with the second and third resolutions of the House of Commons other than is above contained.

No general table of fees profitts and emoluments of the Registrar or Deputy Registrars on taking out of Probates and Administration in the University Court, is to be found in the Registry or elsewhere, but the following list of fees

[1] This book is not to be found at Peterboro'.
